

Dual Platform Start Pack

Who are we?

At Phillip Island Web Radio, we are committed to empowering and servicing the Bass Coast community, businesses and events.

We reside in a world where it is easier than ever to reach our communities online, yet no one within Bass Coast and surrounding regions have harnessed the available technology in the way we do.

We want to partner with you in getting you and our community to more people than ever before.

Helping promote local business and events through the power of social media

On top of this, with our proven method, we want to provide you with the most affordable solutions in reaching the biggest audience that no other local media have reached before.

What specifically?

We broadcast live on Facebook and on our Web-Radio platform. During our community broadcast we display logos, host interviews with business owners, visit businesses and feature and explore their products and services. We want to provide you with the opportunity in tapping into the full potential of the Phillip Island Web Radio.

In this package we have our standard Package which includes the core segments of our broadcast and what we provide for you, also included is our Extras where you can purchase additional products to further and broaden your advertising and reach through us.
